

03 October 2011

**End of Life Announcement for IST Test Systems
Configured with Versions ISTVB, ISTVBP and ISTVBP+, Including Kepco
Power Supplies 4.9 and 6.7.**

PWB Interconnect Solutions Inc announces the end of life for earlier (Pre 2005) configurations of IST test systems. This announcement was decided in October 2011, after PWB had utilized its complete inventory of versions 4.9 and 6.7 Kepco power supplies. The power supplies were discontinued by Kepco in 2009. The following notice pertains to the specific IST test systems running on the ISTVB, ISTVBP and ISTVBP+ operating software.

Affected Products:

All IST test systems with Model numbers “**ISTVB, ISTVBP and ISTVBP+**”

All IST test systems with Serial numbers below **6504 (All installation prior to 2005)**.

Product Migration Options:

The recommended replacement for these systems is the latest model **IST-HC**.
